

Online backup desktop 7x7 key benefits

Increased control

- Your critical data automatically transmitted offsite to our storage vaults
- No risk of backing up to faulty tapes
- Recovery to the file level is available to be immediately performed
- You get the ultimate in equipment compatibility and data delivery for business continuity planning

Increased data security

- Your data is compressed and encrypted on your desktop or laptop prior to being transmitted offsite to our storage vaults
- Only 'bit changes', which are useless to a third party, are sent each day
- Your data is never handled by a third party
- Data remains encrypted and protected on our secure vaults
- Our vaults are replicated between to physical datacenters to provide continued availability of your stored data

Save time

- Fully automatic process
- Easy to use graphical interface
- Includes features for 'road warriors' such as checking for network presence prior to scheduled backups
- No need to manage backup media
- Lost or corrupted files can be recovered within minutes, 24 hours a day

Save Money

- Simple payment plan using credit or debit card
- Reduces costly downtime
- Eliminates upfront and ongoing hardware and software costs

Summary

- Instant offsite backup
- High security and encryption
- Fully automated
- Rapid recovery of lost or corrupted files
- No capital investment
